You may need to complete a Pro Forma Invoice to send your equipment to the United States. Please remember to select "Return/Repair" for reason of shipment to insure that you are not charged taxes and duties. If you have any questions about the items being shipped and/or their carriage values, please contact Amber Onufer or Carolina Larsson (contact information above)

Please DO NOT ship batteries unless we ask for them. The Li-Ion batteries require specific paper work and/or labeling on your package.
